Central Gulf South Natives for Your Environment

Our plants are native plants grown for the Central Gulf South environment.

Louisiana Growers will be closing at the end of June 2024. Thank you for 36 years in business!

Native plant people are the best and we will miss you! Keep the momentum going and remember: Diversity Rules!

Key to Uses: B=Border, C=Constructed Wetlands, L=Local Ecotype, O=Ornamental, R=Raingarden, S=Street Tree, W=Wildlife

Botanical Name	Common Name	Size	Price (\$)	Count Now	Fall Color/ Ever-green	Uses	Wetland Status*
WILDFLOWERS:							
<u>Iris x species</u>	Louisiana Iris (bare-root mixed colors)	BR	3.00	185		C,L,R,W	OBL
GRASSES:							
<u>Juncus effusus 'Elfin Green'</u>	Soft Rush (compact)	1.2 qt	2.50	840		C,R	OBL
<u>Juncus effusus 'Elfin Green'</u>	Soft Rush (compact)	2.5 qt	6.35	1200		C,R	OBL

Taxodium distichum var. nutans	Pondcypress	13.5 gal	58.30	18	FC	C,S	OBL

All plants are container grown and reflect approximate full volumes of the container. Prices are at our nursery and are payable at pick-up. Regional delivery is available via our truck or contracted service. Delivery by us requires a \$700 minimum order; freight is 12% of invoice total or \$120, whichever is higher.

DIVERSITY RULES!

*The wetland indicator status ratings is based on the US Army Corps of Engineers' 2020 Wetland Plant List for the Atlantic and Gulf Coastal Plain region.

OBL: Almost always occurs in wetlands (Obligate Wetland)

FACW: Usually occurs in wetlands (Facultative-Wetland)

FAC: Occurs in wetlands and non-wetlands (Facultative)

FACU: Usually occurs in non-wetlands, but may occur in wetlands (Facultative-Upland)

UPL: Almost never occurs in wetlands (Upland)
